### About Me

I am a Certified Computer Science Technician and a student in the 8th semester of Systems Engineering, with knowledge in IT support and Junior Web Development. I have experience in troubleshooting, software installation and configuration, remote user support, and website development using HTML, CSS, and JavaScript.

I am seeking remote opportunities as an IT Support / Help Desk Technician or Junior Web Developer, where I can provide technical solutions and continue to grow professionally.

## Education

### Computing and Informatics

*IESTP Chancay*

2019 - 2023

Training focused on IT systems support, equipment maintenance, software installation and configuration, basic networking, and user assistance. Skilled in providing technical support, troubleshooting hardware and software issues, managing basic systems, and assisting in the development and use of software applications in business environments.

#### Competencies Acquired:

- Technical Support & Help Desk
- Operating System Installation & Configuration
- Hardware & Software Maintenance
- Basic Networking (LAN, IP, DNS, WiFi)
- Office Automation & IT Tools
- User Assistance & Support

### Systems Engineering

*Universidad Cesar Vallejo*

2024 - ACT.

University training focused on the analysis, design, and development of information systems, programming, databases, and technology project management. Skilled in analyzing business processes, proposing technological solutions, developing applications, and participating in digital transformation projects.

#### Areas of Training:

- Programming and Software Development
- Databases and SQL
- System Analysis and Design
- Web Development
- Software Engineering
- IT Project Management

## Technical Skills

- IT Technical Support
- Remote Help Desk
- User Support
- Software Installation and Configuration
- Windows and Linux
- Basic Networking (TCP/IP, DNS, IP, WiFi)
- Remote Support (AnyDesk, TeamViewer)
- Incident and Ticket Management
- HTML5
- CSS3 (Flexbox, Grid, Responsive Design)
- JavaScript (DOM, Events, Validation)
- React.js (Components, Props, Basic State)
- Git and GitHub
- Basic SQL

## Experience

### Technical Support / Computer Technician

*Posta Pedro Canevaro Garay - Chancayllo* 2022 - 2023

- Provided technical support to administrative and healthcare staff
- Installed and configured computer equipment
- Performed preventive and corrective maintenance on hardware and software
- Supported internal IT systems
- Resolved technical issues in a Windows environment
- Assisted with connectivity and basic networking

### IT Technical Support / Web Design

*Hospital de Chancay y SBS Dr. Hidalgo Atoche López* 2023 - 2023

- Provided technical support to users in hospital information systems
- Installed and configured institutional software
- Handled first-level technical incidents (Help Desk)
- Developed and maintained informational websites
- Designed and updated web content
- Assisted with internal technological solutions

### Database Support / IT Support

*Notaria Narvaez* 2023 - Actualidad

- Managed and supported databases
- Recorded, queried, and updated information
- Assisted with the administration of institutional data
- Provided technical support to internal users
- Backed up and organized information
- Used basic SQL for queries and data maintenance

## Featured Projects

### Web Order System for Restobar (QR)

*Junior Web Developer – Real Project*

- Developed a web application for order management in a restobar using QR codes per table
- Implemented a digital menu accessible via QR code for placing orders
- Automatically sent orders to the waiter's panel for validation
- Confirmed order flow directed to the kitchen
- Added functionality for customers to request the bill via the app
- Used unique QR codes for tables to prevent order errors
- Developed an admin panel to display daily earnings
- Implemented using React and TypeScript
- Managed states and information flow between roles (customer, waiter, kitchen, admin)

### Web Platform for Services and Quotation

*Web Developer – React & TypeScript*

- Developed a website for creating programs and websites
- Implemented a contact form with redirection to WhatsApp for quotations
- Focused on customer acquisition and conversion
- Developed using React and TypeScript

## Featured Projects

### Website for Convention / Event

*Web Developer – HTML & CSS*

- Developed an informational website for a convention
- Created a guest section with animations and hover effects
- Dynamic image change of actors to their character when hovering over the image
- Redirected users to the main page for ticket purchase
- Implemented using HTML and CSS

### Web Portfolio / Online Resume

*Web Developer*

- Developed a personal website as an online resume
- Showcased professional information, projects, and contact details
- Focused on personal branding and online presence

### Personal Finance Dashboard System

*Web Developer – PHP*

- Developed a PHP-based dashboard system for managing personal finances and loans
- Integrated a calendar feature that sets money-saving challenges and goals
- Allows users to set financial goals (e.g., saving for a phone) and track progress as they save
- Provides a visual completion of goals as users reach their savings targets

## Languages

- Spanish: Native
- English: Basic (technical reading)

## Additional Information

- Immediate availability
- Remote work available
- Continuous learning
- Teamwork
